**Subject:** RE: Absorbent Technologies - Queen Ave. Property - Status request

Ted & Cliff:

With the caveat that one 55-gallon drum still needs to be removed (I understand this is scheduled to happen tomorrow), will EPA issue a written notice to the interested parties that the environmental removal/remedial actions at the property are complete? If so, what is the timing and form this notice take? We are trying to facilitate removal of certain equipment, so your assistance in this regard is much appreciated.

Thanks,

Rich,

Dan Heister told me that the remaining, last piece of work that needs to be done at the Queen Street property is the disposal of a 55 gallon drum of the waste captured during the flushing process. Once this drum is sent off-site and properly disposed of, the Queen street property work will be done.

Thanks Ted. Please let us know the status when you hear back from Dan. And we will talk to Dave Ellis (and clients) about communication protocols.

Chris,

I'll check with Dan. Dave Ellis left a voice mail message for me this morning. Knowing that you represent him, I do not believe that I can communicate with him. Can you advise him on the issue? Thanks.

Ted and Cliff:

Can you let me know if Dan Heister has given clearance to the Queen Ave. property regarding environmental response actions required by EPA? An update this morning would be much appreciated (and I would be glad to contact Dan Heister directly if OK with you).
